We take a
closer look...

JT Landscaping has been servicing clients, both public and private since 1991. From the beginning, founder Joe Tortorea, has never lost sight of his initial concept: satisfying customers by delivering professional, reliable, and high-quality landscaping services at competitive prices.

JT Landscaping is located in Oakdale, PA. The convenient location allows us to offer residential and commercial services throughout the Pittsburgh region including both the North and South Hills, PA area.

Our experts and fleet of equipment will bring you professional landscaping services from weekly lawn-maintenance to large-scale projects. We are fully equipped for landscape installations or special jobs such as french drains and walls.

*With our crews working for you,
you can expect only the best service
and no points overlooked.*

 Landscape & Design with **DigiScape!**

Allow us to come to your house or business for a free consultation. We will take a digital picture of your property...

...and use computer imaging to take the guess work out of how your landscaping will look. We have used this service for many customers and the feedback is always positive. Since most clients don't know plant textures or growing habits, the importance of seeing a visual of how our plan will actually look once installed is very beneficial. This service enables you to see all the possibilities before a shovel ever hits the dirt. Designs are saved as JPEG files that can be sent to your e-mail address for viewing once completed.

Professional Installation, **Stunning** Results

Our team of professionals will install your landscaping in a timely manner. We use plant material from reputable nurseries who purchase their stock from proven growers. The seed mix we use from Penn State is the best available to ensure a healthy, green lawn. Your planting will be warranted for one year from the date of installation.
